75% of Estimated Cost (must be paid up front) \_\_\_\_\_

Remaining balance (terms net 30) \_\_\_\_\_

| Check Yes or No regarding installation of the following |     |    |                                   |     |    |
|---|-----|----|-----------------------------------|-----|----|
|   | Yes | No |                                   | Yes | No |
| Irrigation System                                       |     |    | Solar System(s)                   |     |    |
| Fire Sprinkler System                                   |     |    | Farming-(Spray Tanks, Fertilizer) |     |    |
| Swimming Pool   |     |    | Cattle Trough(s)                  |     |    |
| Pond or Water Feature                                   |     |    | Boiler(s)                         |     |    |
| Hot Tub   |     |    | Other:                            |     |    |

*Marking yes to any these installations means that the customer will be required to install a testable backflow device. Please be advised: Your plumber may need to provide a pressure regulator and design for thermal expansion. (The District installs check valves at meter).*

**As a condition to the delivery of domestic water, I agree to the following:**

1. Installation costs paid in full or within time prescribed by Water District.
2. Payments for water used by myself or by tenants within time prescribed by Water District.
3. Meter must be accessible at all times.
4. Above described property will be annexed into the District (if not already in District)
5. Any other policies, rules & regulations as required by the District's Board of Commissioners.
6. I understand that as soon as my meter is installed I will begin receiving a monthly bill.
