BULK FILL WATER OPTIONS This is NON-POTABLE water

The kiosk & bulk fill station is located just north of our shop & office at 881 SW Culver Hwy, Madras OR.

New Oregon State Law HB 4061 requires we keep detailed records for water haulers. This coincided with DVWD's desire to restrict water haulers to one fill station instead of hydrants throughout the district, so we've built a fill station with kiosk that meters the water filled.

We now have three options for water haulers:

1. RECURRING (Account Holder)

- This option would effectively make you a customer of the District until you let us know otherwise.
- The monthly base rate is $20.00 (for 0- 2000 gallons) or 1¢/gallon.
- There is a $20 account setup fee. As a customer, you will be subject to this account set-up fee, and a monthly paper bill will be sent to the mailing address you provide.
- Rate: 1¢/gallon - Excess of 2000 gallons is $10.00 per 1000 gallons. (Also 1¢/gallon)
- Our bills come out around the first of the month (for the prior month's use) and are due on the 20th. Not paying by the due date will result in suspension of bulk water filling privileges.
- With this option, after you receive your first bill, you can go online and register for our Online Billpay Portal, which allows you to pay by credit/debit card, setup Autopay, paperless, and access your bill in pdf form.
- The first fill--- we will need the hauler to come in and get a permanent four-digit PIN #.
- It is the customers' responsibility to keep their information up to date with DVWD.
- This option allows for 24/7/365 use of the fill station.

2. ONE TIME FILL (Non-Account Holder)

- No set up fee, pay as you go. (not billed monthly)
- There is a $10 minimum.
- Base rate is $20.00 per 1000 gallons or 2¢/gallon.
- We will then verify the gallons used finished filling, and payment is then required before the truck leaves.
- The hauler will need to sign the application each time to verify that the information is still correct (pursuant to OR HB 4061).
- This option requires that the hauler come in during our open office hours (M-F 7:30-3:30) and get a unique PIN # each time.

3. HYDRANT METER RENTAL (OFF SITE)

- Requires the establishment of a monthly billable account.
- Rate = $.02/gallon
- Deposit is $2000
  (Credit Cards transactions are subject to 3% administrative fee)
- Hydrant Setup/Retrieval Fee = $120 (will be billed)
- Monthly rental charge of $60
- Must fill out application which includes location of project along with location of hydrant.
- This option is subject to hydrant availability

All three require a filled-out application and a bit of instruction using the kiosk for the first time.
For hydrant: We provide a 2-1/2" NST threaded fire hydrant connection at the fill station.
For hose connection customer must provide their own regular garden style hose.

Flow: hose = about 40 gpm hydrant = about 200 gpm

The red fire hydrant at the fill station is for District use only, bulk customers have a fire hose connection on the north side of the hydrant.
